Let's Make Words

Ask a parent to help you cut and paste the dice together.

Dice works best when printed on thick paper or card stock.

Tip: When the child is done playing with these dice, they can be interchanged with other dice in the series "Let's make words" to make new words.

How to Play

The blue die has phonograms/word family letters and the orange die has consonants. Ask your child to roll both the dice. Then ask him to sound out the letters from both dice and try to make a word. If it's a real word, ask him to write it down on the list. If the word doesn't make sense then it does not go on his list. If there are more players, then the one who has more real words in the end wins! Tip: Ask him to line up the dice. Orange first, then the blue one next to it to make the word.
